

## **Call for abstracts**

**Submissions are now open for abstracts for poster or oral presentations at the 2024 H<sub>2</sub>science conference.**

**Abstracts will be assessed by the H<sub>2</sub>science Scientific Committee, and accepted based on relevance to the scope of the scientific topics, high scientific quality, novelty, and presentation.**

**Abstracts are invited to cover the entire hydrogen value chain (see the list of topics below).**

**The submission deadline is 15 April 2024.**

**Visit [h2science.no](https://h2science.no) or scan the QR code for more information.**

## **Topics:**

- + **Hydrogen and ammonia production**
- + **Material integrity in the presence of hydrogen and ammonia**
- + **Societal and environmental aspects**
- + **International R&D pilot and large-scale initiatives**
- + **Hydrogen and ammonia safety**
- + **Hydrogen and ammonia transport and storage**
- + **End-use technologies**
- + **Novel topics in hydrogen and ammonia**
